CUSTOMER INFORMATION

BALE SPEARS - Move unit by inserting tractor mounted front loading side by side spears (minimum three feet in length) into either end of spear tubes. Do not attempt to use other types of bale spears including single spear, triple spears or short spears. Do not use rear mounted spears of any kind including tractor, truck or dolly spears.

BALE TRANSPORT - Transport empty unit at a safe angle and height keeping center of gravity as low as possible. **Warning:** Always transport unit empty. Do NOT lift or transport unit with round bale in chain sling.

RED TEAR DROP - Helps determine relative carry angle when moving empty unit. If you see red tear drop protruding past vertical plane of left leg, unit's carry angle may be too steep.

LOADING A BALE - To load a round bale, spear round bale of proper size by inserting spears into end of round bale just above half the height of your bale. With tractor, lift bale over either end rail, center the bale above unit and lower it until it hovers a few inches above chains, cut off string or net wrap, then lower bale into sling. After each feeding. Transport **empty** unit to new feeding area to maintain integrity of unit and to promote growth of new pasture. Place on dry, level ground. Never slide or skid unit.

CAUTION: If frozen in place or otherwise stuck, release unit by first chipping or digging it out. Do not try to dislodge unit by prying, pushing, pulling or lifting with spear tubes. To do so could constitute misuse and void the warranty.

ABUSE & MISUSE - Unauthorized modification, abuse & misuse voids warranty. Keep livestock and bystanders at a safe distance during transport and use.

NOTICE: BOVEQ, ROUND BALE SAVER, llc, OWNERS, DEALERS, EMPLOYEES, PRINCIPALS, HEIRS AND ASSIGNS are not responsible for damage to property, equipment, accidents or injury to livestock or people. Inspect unit regularly, if you find or suspect damage **do not use**, call BoVeQ - Round Bale Saver, llc at 918-514-0221 to discuss options. Dealers and customers should read & follow Instructions included with each unit.
